SUMMARY

Software Developer with hands-on experience in backend and full-stack development using .NET, Python, and modern JavaScript frameworks. Skilled in building REST APIs, designing database-driven systems, and delivering scalable web applications. Professional experience at Genpact contributing to production features, resolving bugs, and improving existing systems. Proficient in React, FastAPI, SQL, Docker, Git, CI/CD, and Jira workflows.

TECHNICAL SKILLS

Programming Languages: C#, JavaScript, TypeScript, Python, Java, SQL
Frontend Development: React, Next.js, Tailwind CSS, HTML, CSS
Backend Development: .NET Core, FastAPI, Node.js, REST APIs
Databases: MySQL, SQL Server, PostgreSQL, MongoDB, Supabase
Cloud & DevOps: Docker, CI/CD (GitHub Actions)
Tools: Git, GitHub, Postman, Jira

WORK EXPERIENCE

Genpact: Full Stack Engineer

September 2025 – March 2026

- Built AI-powered full-stack systems using FastAPI, React, PostgreSQL, and LLM integrations.
- Deployed scalable applications with REST APIs, Docker, CI/CD, and Azure infrastructure.
- Led development, code reviews, and rapid prototyping in an Agile environment.

Tectigon Academy: Software Development Intern

December 2024 – May 2025

- Developed full-stack applications using .NET Core and modern frontend technologies.
- Built REST APIs and integrated them with frontend interfaces.
- Gained hands-on experience in real-world development practices.

Com-ing: Wordpress Developer:

November 2023 – January 2024

- Built and maintained WordPress-based websites.
- Implemented responsive layouts and improved UI structure.

PROJECTS

Guitar Shop

React • GraphQL • Apollo Client • Bootstrap

Developed a dynamic e-commerce frontend with product pages, GraphQL data fetching, and responsive UI.

Adriatica Real Estate

Next.js • TypeScript • Firebase • Tailwind CSS

Developed a responsive real estate platform with property filtering, pagination, and an admin dashboard. Implemented secure authentication, image management, and direct client communication features.

Restaurant Management System

C# • .NET Core • MySQL • JWT

Built a secure backend system for managing customers, reservations, and orders with full CRUD functions. Implemented JWT authentication and role-based access control with a well-structured MySQL database.

EDUCATION

UBT - UNIVERSITY: BSc of Computer Science & Engineering

October 2022 – January 2026

CERTIFICATIONS

- C# & .NET Core Development – Tectigon Academy
- FullStack Development & UI/UX Design – Tectigon Academy
- Certified Software Developer – UBT University
- IT Essentials – Cisco
- CCNAv7 - Cisco
